

## Senior Full-Stack Engineer - Mobile (m/f/d) Vienna, Austria

Apply now

**Founded in 2012, wikifolio.com is a dynamic and rapidly growing FinTech in Vienna and the best-known company for B2C investments in German-speaking countries.**

We believe that everybody should be able to invest successfully in the capital markets – regardless of whether you have €100 or €100,000 to invest. We stand for the democratisation of the investment market and put our users at the centre of our focus.

As our **Senior Full-Stack Engineer - Mobile**, you will play a key role in building and evolving our mobile applications and their supporting backend services. You will work within the App Team alongside the Team Lead and cross-functional partners to deliver robust, scalable, and secure solutions for our customers.

This role focuses on developing high-quality mobile experiences using **React Native** while also designing and implementing **backend services using NestJS**, tailored to the needs of mobile clients. You will contribute to architectural decisions, drive technical quality, and support production systems in a fintech environment where reliability and performance are critical.

### Responsibilities

- Lead the development of mobile application features for iOS and Android using React Native.
- Design, implement, and maintain backend services using NestJS, exposing REST and/or GraphQL APIs for mobile clients.
- Collaborate closely with the Team Lead, Product Management, Design, and Backend teams to align on requirements and technical solutions.
- Take ownership of end-to-end feature delivery across mobile client and backend layers.
- Ensure high standards of code quality through code reviews, refactoring, and adherence to best practices.
- Improve application performance, stability, and scalability on both client and backend sides.
- Implement and maintain testing strategies across mobile and backend components.
- Contribute to and improve CI/CD pipelines for mobile and backend services.
-

Participate in on-call rotations, production support, and incident response.

- › Identify and proactively address technical debt and architectural challenges.
- › Stay up to date with React Native, NestJS, and full-stack development best practices.

## Requirements

- › Senior-level experience in mobile application development.
- › 5+ years of experience with React Native.
- › 2–3+ years of backend development experience using Node.js frameworks, preferably NestJS.
- › Strong proficiency in TypeScript and JavaScript.
- › Experience building and consuming REST APIs; GraphQL experience is a plus.
- › Solid understanding of iOS and Android platform-specific considerations.
- › Experience with state management and performance optimization in mobile applications.
- › Working knowledge of Docker for development and deployment.
- › Experience with CI/CD pipelines for mobile and backend applications.
- › Familiarity with authentication and authorization concepts; experience with OAuth and JWT is a strong plus.
- › Proficiency with Git and modern version control workflows.
- › Willingness to participate in on-call duties, production support, and incident response.
- › An interest in financial markets is required.
- › Strong verbal and written communication skills in English.

## It's a plus if you have

- › Experience with PostgreSQL and ORMs such as TypeORM.
- › Cloud experience on AWS, Azure, or GCP.
- › Knowledge of mobile security best practices.
- › Experience with mobile and backend testing frameworks.
- › Exposure to performance profiling and monitoring tools.

## Technical challenges you will work on

- › Delivering complex features across mobile and backend layers with a consistent and high-quality user experience.
- › Improving performance and reliability of mobile applications and backend services.
- › Maintaining consistent behavior across iOS and Android platforms.
- › Ensuring high test coverage and safe deployments.

- Implementing robust error handling, monitoring, and logging in production systems.

## What you can expect

Team-oriented work environment

Young, dynamic and distinguished colleagues

State-of-the-art technology

Home-Office
