

Full Stack Developer (m/f/d)

Apply now

Founded in 2012, wikifolio.com is a dynamic and rapidly growing FinTech in Vienna and the best-known company for B2C investments in German-speaking countries.

We believe that everybody should be able to invest successfully in the capital markets – regardless of whether you have €100 or €100,000 to invest. We stand for the democratisation of the investment market and put our users at the centre of our focus.

As a Full Stack Developer (m/f/d), you will become part of a motivated and international team working on the further development and improvement of our platform.

If you feel comfortable in both frontend and backend development and value an innovative and agile work environment, then you are the right fit for us.

Responsibilities

- › Development of our web platform in both frontend and backend
- › Creation of high-quality technical concepts
- › Conducting code reviews and ensuring code quality
- › Participation in the planning and implementation of new features
- › Collaboration with product managers and designers to create user-friendly and appealing solutions
- › Analysis and specification of product requirements together with the Team Lead and Product Owner
- › Continuous learning about new trends in frontend and .NET, as well as discussing them within the team

Requirements

- › Several years (5+) of professional experience with C#/.NET and React
- › Good knowledge of JavaScript / TypeScript, HTML, and CSS
- › Experience with GIT and Continuous Integration
- › Testability, good usability, performance, and reusability are essential quality standards in your work
- › Basic knowledge of system design (caching, load balancing, event-driven design, microservices, DDD, REST APIs)
- › Experience with .NET Core and .NET MVC is a plus
- › Fluent English skills
- › Excellent teamwork and communication skills
- › Interest in the financial market is a plus
